

Subject Index to Volume 19

A

- Abdominal visceral afferents, stimulation, substance P, 5-hydroxytryptamine, and bradykinin in, R465
- Acclimation: *see* Temperature; Seasonal acclimation, and the specific environmental condition
- Acid-base balance
 - complete ischemia, brain, R348
 - deep hypoxia effects, ion transfer processes in (trout), R319
- ACTH: *see* Adrenocorticotrophic hormone
- Actomyosin, cross bridges, skeletal muscle (frog), R56
- Adenosine monophosphate, adenylate cyclase stimulation, shock and, myocardium, R358
- Adenosine monophosphate, cyclic bronchiolar epithelium development, neonate, R783
 - secretory sodium chloride, volume flow and, kidney tubules (flounder), R753
- Adenosine triphosphate
 - extracellular effects, isolated hepatocytes, R573
 - pH-dependent, phosphofructokinase control in muscle, R71
- Adenylate cyclase, myocardial, β -adrenergic stimulation of, shock and, R358
- Adipose tissue
 - brown: *see* Brown fat
 - metabolism, exercise training effects, pregnancy and, R837
- Adrenalectomy, obesity development after, R595
- Adrenal glands, norepinephrine turnover and, kidney, R567
- Adrenal steroids, ACTH and, control with angiotensin II and CRF interaction, R396
- Adrenergic control, blood pressure, development and, R188
- Adrenocorticotrophic hormone
 - adrenal steroids, control with angiotensin II and CRF interaction, R396
 - cortisol-induced inhibition of, fetus (sheep), R795
 - plasma renin activity and, during hypoxia and hemorrhage, awake state, R240
 - renin control and, negative feedback, fetal and adult (sheep), R403
- Afferent nerves, visceral fibers, abdominal, chemical stimulation of, R465
- Aging
 - carotid baroreflex function and, R1047
 - prostate growth and, R1039
 - sexual loss and, males, R665
- β -Alanine, secretion, kidney (snake), R712
- Aldosterone
 - ACTH and, control with angiotensin II and CRF interaction, R396
 - adrenocortical function and, during hypoxia and hemorrhage, awake state, R240
 - atrial stretch and, awake state, R221
 - hypothalamic lesions and hemorrhage, R18

- Alkalosis, respiratory, renin, ACTH, and adrenocortical function during, awake state, R240
- Allohemoglobin, interaction, whole blood (sheep), R298
- Alloxan, hepatic portal injection, glucagon-induced feeding inhibition and, R582
- Altitude, high, arterial wall and, R485
- Amines, thermoresponsive neurons and, brain stem, R553
- Amino acids
 - secretion, renal (snake), R712
 - transport, ionic requirements of, kidney (fish), R984
 - voluntary diving and (seal), R175
- α -Aminobutyric acid, VIP release, cerebral cortex, R104
- γ -Aminobutyric acid
 - baroreceptor-mediated sympathoinhibition, involvement in, R1065
 - C₁ neurons, cardiovascular responses from ventral medulla and, R932
- Amniotic fluid
 - concentrations, diffusion permeability, human placenta (guinea pig), R459
 - osmolality, fetal renal contribution to, maternal hypertonicity (ewe), R235
- Angiotensin
 - control of sodium excretion, R960
 - dehydration and rehydration, R898
 - drinking and (fish), R1034
 - extraction, gill (trout), R532
 - water drinking, ablation of subfornical organ (sheep), R1052
- Angiotensin II
 - baroreflexes and, nucleus tractus solitarius, R193
 - central actions of, suppression of sodium appetite and, R251
 - concentration, central and systemic, osmoregulatory control of, R918
 - CRF interaction, control of ACTH and adrenal steroids, R396
 - osmotic regulation of vasopressin and, R287
- Anisomycin, circadian clock, eye (Aplysia), R5
- Anorectic drug, feeding and gastric emptying (monkey), R764
- Anorexia, epinephrine-induced, ontogeny, R313
- Anoxia
 - endocochlear potential and (gerbil), R493
 - extracellular ATP effects, isolated hepatocytes, R573
- Antidiuretic hormone: *see also* Vasopressin
 - methionine-enkephalin and, spontaneous hypertension, R1007
 - osmotic regulation of, sodium depletion and angiotensin II effects, R287
- regulation
 - awake state (cockere), R644
 - water deprivation and, awake state (cockere), R658
 - release, prostaglandin effects, awake state, R1028

- syndrome of inappropriate secretion, osmoregulation of vasopressin and oxytocin, R444
- therapy, diabetes and, enhanced noradrenergic activity in kidney, R567
- Antipyrine, clearance, placental growth restriction and blood flow (ewe), R427
- Aortic nerve, afferent interactions, dorsal medulla, R580
- Appetite: *see* Feeding
- Arachidonic acid, prostaglandin E₂ synthesis and, cycloheximide effects, burn injury, R207
- Arginine vasotocin: *see* Vasotocin
- Artrial wall, morphology, high-altitude effects, R485
- Aspirin, prostaglandin E₂ release and, burn injury, R207
- ATP: *see* Adenosine triphosphate
- Atria: *see* Heart atria
- Atriopentin
 - atrial natriuretic factor effects, pregnancy, R589
 - infusion, left atrial stretch comparison, awake state, R221
- Atriopentin III, atrial stretch, sodium excretion and, R946
- Auditory pathway, external and intrauterine stimulation, brain stem, fetus (sheep), R137
- Autonomic nervous system, chronic decerebration, insulin secretion in, R539
- Awake state
 - arginine vasotocin regulation (cockere), R644
 - atriopentin infusion, left atrial stretch comparison, R221
 - hypoxia and hemorrhage, renin and ACTH activity during, R240
 - hypoxia and sinoaortic denervation, peripheral circulatory responses (sheep), R868
 - thermoregulation, ventromedial hypothalamus, R560
 - vasopressin release, prostaglandin effects, R1028
 - water deprivation, regulation of arginine vasotocin (cockere), R658

B

- Behavior, sexual, correlates of loss, aging and, male, R665
- Bicarbonate, changes, complete brain ischemia, R348
- Bladder: *see* Urinary bladder
- Blockade
 - adrenergic, exercise and, R1060
 - α -adrenergic, cardiovascular responses to static exercise and, R1
 - ganglion, electrical stimulation, subfornical organ, R1117
- Blood
 - oxygen equilibrium curve shape, allohemoglobin interaction and (sheep), R298
 - volume: *see* Volume
- Blood-brain barrier
 - glucose transport, R127

Blood-brain barrier (*continued*)
 osmotic, opening to monoclonal antibody, R875
 Blood flow: *see also* Circulation;
 Microcirculation
 capillary, glucose metabolism, brain, R127
 cerebral
 hypocapnia and hypercapnia effects (geese), R499
 hypoxia and sinoaortic denervation effects, awake state (sheep), R868
 leg, dehydration and heat stress (baboon), R30
 renal
 angiotensin and, R960
 left atrial stretch effects, awake state, R221
 umbilical, placental growth restriction effects (ewe), R427
 uterine
 endogenous hormone effects, pregnancy (ewe), R365
 placental growth restriction effects (ewe), R427
 uteroplacental (ewe), R1099
 Blood pressure: *see also* Pressure
 adrenergic control, development, R188
 angiotensin extraction, gill (trout), R532
 angiotensin II effects, nucleus tractus solitarius, R193
 atrial natriuretic factor effects, pregnancy, R589
 changes, taurine in DOCA-salt rats, R1007
 control, fastigial nucleus stimulation and, R418
 hypoxia and hemorrhage, renin and ACTH during, awake state, R240
 regulation
 angiotensin and, R960
 C₁ neurons, R932
 maintenance of, aging and, R1047
 sympathetic nervous system and, maintenance, R770
 Body
 composition, exercise training effects, pregnancy, R837
 fat: *see* Fat
 water: *see* Water
 weight: *see* Weight
 Bohr factor
 carbon dioxide
 erythrocyte metabolism and (chicken), R260
 whole blood (sheep), R298
 Bone, mineralization, ovine prolactin effects (tilapia), R161
 Bradykinin
 abdominal visceral afferent stimulation, R465
 interaction with prostaglandin E₁, cardiac sympathetic afferents, R815
 Brain
 acid-base homeostasis, complete ischemia and, R348
 glucose metabolism, model, R127
 pantothenic acid transport, R292
 synaptosomes, uremia, R306
 temperature changes, interleukin 1-enhanced sleep, R96
 tumor, osmotic blood-brain barrier opening, R875
 water and electrolytes, hyponatremia, R444

Brain stem
 auditory response, fetus (sheep), R137
 baroreflexes, angiotensin II effects, nucleus tractus solitarius, R193
 caudal, chronic decerebration, insulin secretion in, R539
 thermoresponsive neurons, amine effects, R553
 Bronchiolar epithelium, development of, R783
 Brown fat
 adrenalectomy effects, R595
 denervation, dietary obesity, R1108
 dystrophy, cold-acclimation effects (hamster), R167
 norepinephrine turnover and guanosine diphosphate binding, diet and photoperiod effects (hamster), R383
 sympathetic and thermogenic activity, dissociation of (hamster), R389
 thermogenesis
 energy balance and, ovarian hormone effects, R245
 energy balance and, pregnancy (hamster), R845
 Bumetanide, sodium-chloride transport and, urinary bladder epithelium (trout), R227
 Burn injury, cycloheximide, prostaglandin E₂ and muscle proteolysis, R207

C

Calcification, shell, water and electrolyte composition (turtle), R1133
 Calcitonin, intracerebroventricular, renal hydromineral excretion and (sheep), R960
 Calcium
 cellular regulation, endotoxic shock, liver, R884
 extracellular ATP effects, isolated hepatocytes, R573
 loading, renal excretion and, chick (gull), R41
 uptake, ovine prolactin effects (tilapia), R161
 cAMP: *see* Adenosine monophosphate, cyclic
 Capsaicin, micturition reflex, postnatal development, R926
 Captopril, angiotensin II and, sodium appetite suppression, R251
 Carbohydrates, metabolism (tuna), R452
 Carbon dioxide
 changes, complete brain ischemia, R348
 erythrocyte metabolism and (chicken), R260
 tension, arterial, hypocapnia and hypercapnia effects (geese), R499
 Carbonic acid, buffer, complete brain ischemia, R348
 Cardiovascular afferent nerves, dorsal medulla, interactions in, R580
 Cardiovascular integration, diurnal variations, R37
 Carotid sinus
 on-line compliance, vascular segments, R142
 vasoactive drug effects, R1074
 Carotid sinus nerve, afferent interactions, dorsal medulla, R580
 Catecholamines
 atrial stretch and, awake state, R221
 circulating, metabolism, gill (trout), R526
 concentration, arterial wall, high altitude and, R485
 electrical activity and, placenta (pig), R474
³H-labeled, metabolism (trout), R519, R526
 hypoxia, sinoaortic denervation and, awake state, R868
 CCK: *see* Cholecystokinin
 Central nervous system
 glucagon action, hypothalamus, R120
 α -MSH antiserum, fever and, R803
 pantothenic acid transport, R292
 stimulation, modulation by nucleus tractus solitarius, R996
 Cerebral cortex, neurotransmitter modulation of VIP release, R104
 Cerebral ventricles, anteroventral third, corticosteroid and plasma restitution, hemorrhage and hypothalamic lesions, R18
 Cerebrospinal fluid, angiotensin, osmoregulatory control of, R918
 Chloride
 active transport, urinary bladder epithelium (trout), R227
 taurine transport, kidney (fish), R984
 transport, kidney (quail), R341
 Chloride-bicarbonate exchange
 regulation of intracellular pH, hepatocytes (trout), R24
 urinary bladder epithelium (trout), R227
 Cholecystokinin
 inhibition of feeding with, alloxan effects, R682
 meal suppression, insulin effects (baboon), R856
 Cholecystokinin-8, fasting interval and (baboon), R851
 Choroid plexus, pantothenic acid transport, R292
 Chromatography, gel filtration, two natriuretic factors (mosquito), R328
 Circadian rhythms: *see* Rhythms
 Circadian system
 physiology of, R737
 response, light and dark transitions (hamster), R708
 Circannual variations, circadian rhythms (squirrel), R831
 Circulation: *see also* Blood flow;
 Microcirculation
 peripheral responses, hypoxia and sinoaortic denervation, awake state (sheep), R868
 regional responses, hypocapnia and hypercapnia (geese), R499
 Clara cells, bronchiolar, development, neonate, R783
 Clearance, radioiodide, placenta (sheep), R112
 Clonidine, α_2 -noradrenergic feeding rhythm, paraventricular nucleus, R83
 Cochlea
 auditory response, brain stem, fetus (sheep), R137
 potential development, anoxia effects (gerbil), R493
 Cold
 acclimation
 dystrophy and (hamster), R167
 hibernation and, vascular smooth muscle response (woodchuck), R77
 defense response, ventromedial hypothalamus and, awake state, R560

- Collagen, knee menisci, response to thermomechanical stress, R65
- Compliance
carotid sinus, vasoactive drug effects, R1074
on-line, isolated vascular segments, R142
- Converting enzyme inhibitor, angiotensin and, hemorrhage-stimulated drinking (fish), R1034
- Corticosteroids
control, angiotensin II and CRF interaction, R396
restitution, hypothalamic lesions and hemorrhage, R18
- Corticosterone
adrenocortical function and, during hypoxia and hemorrhage, awake state, R240
hypothalamic lesions and hemorrhage, R18
 α_2 -noradrenergic feeding rhythm, paraventricular nucleus, R83
- Corticotropin-releasing factor, angiotensin II interaction, control of ACTH and adrenal steroids, R396
- Cortisol
inhibition of ACTH, fetus (sheep), R795
plasma concentration, fetus (sheep), R795
- CRF: see Corticotropin-releasing factor
- Cyanocobalamin, diffusion permeability, human placenta (guinea pig), R459
- L-Cysteic acid, secretion, kidney (snake), R712
- Cytochrome c oxidase, diet effects, brown adipose tissue (hamster), R389
- D**
- Decerebration, chronic, insulin secretion in, R539
- Dehydration
angiotensin II, osmoregulatory control of, R918
heat stress and, blood flow, leg (baboon), R30
osmotic and volume stimuli, regulation of neurohypophyseal secretion, R267
rehydration and, angiotensin in, R898
spontaneous hypertension, methionine-enkephalin and vasopressin in, R1007
- Deoxycorticosterone acetate, osmotic regulation, plasma vasopressin, R287
- Deoxycorticosterone-salt, taurine in, blood pressure and fluid changes, R1007
- 2-Deoxy-D-glucose, α_2 -noradrenergic feeding rhythm, paraventricular nucleus, R83
- Deuterium, energy expenditure, doubly labeled water, R823
- Development
blood pressure control in, R188
endocochlear potential (gerbil), R493
feeding behavior, control of, infant, R807
postnatal, micturition reflexes, R926
reproductive, sex differences, R370
- Diabetes, norepinephrine turnover and, kidney, R567
- Diet: see Feeding
- Diuresis, atrial stretch, atrial peptides and, R946
- Diurnal variations, cardiovascular integration, R37
- Diving, volunteer, metabolic studies, microcomputer assisted (seal), R175
- DOCA-salt: see Deoxycorticosterone-salt
- Dorsal medulla, renal and cardiovascular afferent nerves, interactions in, R580
- Drinking
angiotensin-induced, ablation of subfornical organ (sheep), R1052
angiotensin-stimulated (fish), R1034
rehydration, angiotensin in, R898
- E**
- Elastance, arterial, ventricular efficiency, model, R1021
- Elasticity, vascular segments, technique for measurement, R142
- Electrical activity, sodium transfer and, placenta (pig), R474
- Electrical stimulation
fastigial nucleus, respiratory responses to, R418
subfornical organ, hemodynamic responses, R1117
- Electrolytes
brain, hyponatremia and, R444
composition, shell size and (turtle), R1133
- Electron probe analysis, proximal tubules (flounder), R608
- Electrophoresis, central action of glucagon, hypothalamus, R120
- Electrophysiology, transepithelial, proximal tubules (flounder), R608
- Endocrine system, multiple adjustments, photo-induced, testicular function and, R199
- Endocytosis, interacting populations, regulation, R1123
- Endogenous hormones, uterine blood flow regulation and, pregnancy (ewe), R365
- Endoplasmic reticulum, cellular calcium regulation, endotoxic shock, R884
- Endotherms, newborn, critical radius of, R699
- Endotoxic shock: see Shock
- Endotoxin, fever, endogenous pyrogens and, R776
- Energy
balance
brown fat and, pregnancy (hamster), R845
brown fat thermogenesis and, ovarian hormone effects, R245
cold acclimation and (hamster), R167
elastic, storage, skeletal muscle (frog), R56
expenditure, doubly labeled water, R823
Enkephalins, vasopressin and, spontaneous hypertension, R1007
- Enzymes: see specific enzyme
- Epidermal growth factor, tumor promoter, dynamics, models, R1123
- Epidermis, eccrine sweat, proteolytic enzymes in, R691
- Epinephrine
anorexia, ontogeny of, R313
bronchiolar epithelium development, neonate, R783
 C_1 neurons, cardiovascular responses from ventral medulla, R932
 3 H-labeled, metabolism (trout), R519, R526
inhibition of feeding with, alloxan effects, R682
mechanical effects, carotid sinus, R1074
- Erythrocytes, metabolism, regulation (bird), R260
- Estradiol
energy balance and thermogenesis with, brown adipose tissue, R245
neurons and, preoptic hypothalamic tissue slices, R625
uterine blood flow regulation, pregnancy (ewe), R365
- Estrone, uterine blood flow regulation, pregnancy (ewe), R365
- Estrous cycle, brown fat thermogenesis, pregnancy and (hamster), R845
- Estrus, circannual variations, circadian rhythms (squirrel), R831
- Exercise
adrenergic blockade and, R1060
glucoregulation during, R411
static, cardiovascular responses to, α -adrenergic blockade effects, R1
training, adipose tissue metabolism in pregnancy and, R837
- Eye, circadian clock, protein synthesis and (Aplysia), R5
- F**
- Fastigial nucleus, stimulation, respiratory responses to, R418
- Fasting
cholecystokinin-8 effects (baboon), R851
thyroid hormone replacement and, β -adrenergic responsiveness, R861
- Fat, body, adrenalectomy effects, R595
- Fatty acids
esterification, parabiosis, R276
oxidation, control of food intake, R1003
voluntary diving and (seal), R175
- Feedback
control, glucoregulation during exercise, R411
negative, ACTH and renin control, fetal and adult (sheep), R403
- Feeding
central action of glucagon, hypothalamus, R120
circadian rhythms, propylthiouracil effects (hamster), R151
control of intake
fatty acid oxidation and, R1003
infant, R807
dietary obesity, brown fat denervation and, R1108
diet effects, brown adipose tissue (hamster), R383, R309
dose-related suppression, intraportal glucagon infusion and, R676
energy balance, brown fat and, pregnancy (hamster), R845
epinephrine and, anorexia, R313
food anticipation, circadian timing system, R737
food deprivation, β -adrenergic responsiveness to, thyroid hormone replacement effects, R861
food restriction, reproductive development and, sex differences, R370
gastric emptying and
extra-abdominal pressure effects, R549
inhibition by fenfluramine (monkey), R764
glucagon-induced inhibition, hepatic portal alloxan injection effects, R682
 α_2 -noradrenergic rhythm, paraventricular nucleus, R83
sodium appetite, angiotensin II and, R251

Feeding (continued)

- suppression
 - CCK-induced, insulin effects (baboon), R856
 - CCK-8 (baboon), R851
- Fenfluramine, inhibition of feeding and gastric emptying (monkey), R764
- Fetus: *see also* Lactation; Placenta; Pregnancy
 - ACTH and renin, cortisol-induced inhibition of (sheep), R795
 - auditory response, brain stem (sheep), R137
 - negative feedback control, ACTH and renin (sheep), R403
 - oxygen uptake, uteroplacental (ewe), R1099
 - renal contribution to amniotic fluid osmolality, during maternal hypertonicity (ewe), R235
 - weight, placental growth restriction effects (ewe), R427
- Fever
 - behavioral, therapy and, *Rickettsia* infection (cricket), R991
 - brain temperature changes, interleukin 1-enhanced sleep, R96
 - endogenous pyrogens and, R776
 - α -MSH antiserum, central administration of, R803
- Fibrocartilage, knee menisci, response to thermomechanical stress, R65
- Filtration, glomerular, angiotensin and, R960
- Fluid
 - amniotic: *see* Amniotic fluid
 - cerebrospinal: *see* Cerebrospinal fluid
 - extracellular
 - changes, taurine in DOCA-salt rats, R1007
 - shell size and (turtle), R1133
 - volume, body, angiotensin and, R960
- Follicle-stimulating hormone, photo-induced adjustments, testicular function, R199
- Food restriction: *see* Feeding
- Fructose 2,6-bisphosphate, glycolysis and, muscle, R71
- Furosemide
 - angiotensin II and, sodium appetite suppression, R251
 - inhibition of feeding with, alloxan effects, R682
 - secretory sodium chloride, volume flow and, kidney tubules (flounder), R753

G

- GABA: *see* γ -Aminobutyric acid
- Gastric emptying
 - CCK-8 effects (baboon), R851
 - feeding and, inhibition by fenfluramine (monkey), R764
 - food intake and, extra-abdominal pressure effects, R549
- Gastric fistula, control of ingestion and, infant, R807
- Gastric load, control of ingestion, infant, R807
- Gill
 - angiotensin metabolism (trout), R532
 - catecholamine metabolism (trout), R526
- Glia, brain, ischemia and, R348
- Glomerular filtration rate: *see* Filtration
- Glucagon
 - adrenergic blockade, exercise and, liver, R1060

- central action of, hypothalamus, R120
- feeding inhibition, hepatic portal alloxan injection effects, R682
- intraportal infusion, suppression of feeding and, R676
- Glucocorticoids, replacement, adrenalectomy and, development of obesity, R595
- Glucocorticosteroids, bronchiolar epithelium development, neonate, R783
- Glucoregulation, exercise and, R411
- Glucose
 - blood, thyroid hormone replacement, fasting and, R861
 - circulating, regulation of hepatic glucose output, exercise and, R411
 - feeding and gastric emptying, inhibition by fenfluramine (monkey), R764
 - plasma
 - CCK effects (baboon), R856
 - CCK-8 effects (baboon), R851
 - hemorrhagic shock, R951
 - tolerance, chronic decerebration, insulin secretion in, R539
 - transport and metabolism, brain, model, R127
 - turnover (tuna), R452
- Glutamate, VIP release, cerebral cortex, R104
- L-Glutamate, gastric and arterial pressure, modulation by nucleus tractus solitarius, R996
- Glycogen, bronchiolar epithelium development, neonate, R783
- Glycogenolysis, hepatic, exercise and, R411
- Glycolysis
 - phosphofructokinase control and, muscle, R71
 - suppression, phosphofructokinase, ischemic heart, R512
- Growth factor-tumor promoter, dynamics, model, R1123
- Guanosine diphosphate
 - binding
 - diet and photoperiod effects, brown fat (hamster), R383
 - high-fat diet effects, brown fat (hamster), R389

H

- Heart
 - ischemic, phosphofructokinase in, R512
 - isolated, ventricular efficiency, analytical model, R1021
 - necrosis, cold acclimation and (hamster), R167
 - norepinephrine turnover, septic peritonitis, R892
- Heart atria
 - left stretch, atriopeptin infusion comparison, awake state, R221
 - natriuretic factor, pregnancy and, R589
 - stretch, natriuresis and atrial peptides, R946
- Heart rate
 - α -adrenergic blockade, static exercise and, R1
 - thyroid hormone replacement, fasting and, R861
- Heart ventricles, efficiency, analytical model, R1021
- Heat
 - exchange, critical radius of endotherms and, newborn, R699
 - production, ventromedial hypothalamus and, awake state, R560
- stress, dehydration and, blood flow, leg (baboon), R30
- Hematocrit, hemorrhagic shock and, R951
- Hemoglobins, multiple, whole blood (sheep), R298
- Hemorrhage
 - drinking, angiotensin-stimulated (fish), R1034
 - hypoxia and, renin and ACTH during, awake state, R240
- Hemorrhagic shock: *see* Shock
- Hepatocytes
 - cultured, temperature acclimation in (teleost), R211
 - intracellular pH, ionic requirements for regulation (trout), R24
 - isolated, extracellular ATP effects, R573
- Hibernation, vascular smooth muscle response, season and temperature effects (woodchuck), R77
- Homeostasis, predictive vs. reactive, circadian timing system, R737
- Hormones: *see* specific hormone
- Hydrogen ions
 - erythrocyte metabolism and (chicken), R260
 - microelectrode, complete brain ischemia, R348
- Hydromineral, excretion, renal, calcitonin effects (sheep), R980
- 5-Hydroxytryptamine
 - abdominal visceral afferent stimulation, R465
 - thermoreponsive neurons and, brain stem, R553
- Hypercalcemia, ovine prolactin effects (tilapia), R161
- Hypercapnia, regional circulatory responses to (geese), R499
- Hyperglycemia, glucagon and, suppression of feeding, R676
- Hypernatremia, chronic decerebration and, R539
- Hyperosmolality, amniotic fluid, fetal renal contribution to (ewe), R235
- Hyperplasia, prostatic, benign, aging effects, R1039
- Hypertension
 - angiotensin II and, nucleus tractus solitarius, R193
 - carotid baroreflex function and, aging effects, R1047
 - control of sodium excretion, angiotensin and, R960
 - endogenous opiate effects, renin release and, R633
 - methionine-enkephalin, vasopressin and, dehydration effects, R1007
 - spontaneous, sympathoexcitatory neurons in, R910
- Hypertonicity, maternal, fetal renal contribution to amniotic fluid osmolality (ewe), R235
- Hypocapnia
 - regional circulatory responses to (geese), R499
 - sinusoidal denervation and hypoxia, awake state (sheep), R868
- Hypoglycemia, glucose metabolism, brain, R127
- Hypokalemia, renin, ACTH, and adrenocortical function during, awake state, R240
- Hyponatremia, sustained, osmoregulation of vasopressin and oxytocin after, R444

Hypotension

- ACTH and renin, cortisol-induced inhibition of, fetus (sheep), R795
- negative feedback control, ACTH and renin, fetal and adult (sheep), R403

Hypothalamo-neurohypophyseal system, plasma arginine vasotocin regulation, awake state (cockerel), R644, R658

Hypothalamus

- glucagon action, R120
- lesions, hemorrhage and, corticosteroid and plasma restitution, R18
- preoptic tissue slices, neurons in, testosterone, estradiol and temperature effects, R625
- ventromedial, stimulation, thermoregulation and, awake state, R560

Hypovolemia, neurohypophyseal secretion and, R267

Hypoxia

- deep, acid-base balance and (trout), R319
- hemorrhage and, renin and ACTH during, awake state, R240
- sinoaortic denervation and, peripheral circulatory responses to, awake state (sheep), R868

Hysterical enzymes, phosphofructokinase, myocardium, R505

I

Immunoelectrophoresis, phosphofructokinase dissociation, ischemic heart, R512

Immunoneutralization, central, α -MSH antiserum effects, R803

Immunoreactivity, IgM monoclonal antibody, osmotic blood-brain barrier opening to, R875

Immunotherapy, IgM monoclonal antibody, osmotic blood-brain barrier opening to, R875

Indomethacin, prostaglandin E_2 release and, burn injury, R207

Infant: see Neonate

Ingestion: see Feeding

Insulin

- adrenergic blockade, exercise and, liver, R1060
- intracisternal, CCK-induced meal suppression and (baboon), R856
- plasma, CCK-8 effects (baboon), R851
- regulation of hepatic glucose output, exercise and, R411
- secretion, pre- and postabsorptive, chronic decerebration, R539

Interleukin 1, temperature and, sleep and brain, R96

Intestines, lower, modification of ureteral urine (sparrow), R89

Iodide, transfer, placenta (sheep), R112

Ionoregulation, deep hypoxia effects, acid-base balance (trout), R319

Ions, transfer process, deep hypoxia effects on acid-base balance (trout), R319

Ischemia, brain, carbonic acid buffer changes during, R348

Isoproterenol, fasting, thyroid hormone replacement and, R861

K

Kaliuresis, renal function, vasopressin release and, R789

Kidney

- amino acid secretion (snake), R712
- excretion, parathyroid hormone and calcium loading effects, chick (gull), R41
- fetal contribution to amniotic fluid osmolality, during maternal hypertonicity (ewe), R235
- fluid secretion mechanism, trans-epithelial (flounder), R616
- function
 - atrial natriuretic peptide effects, R789
 - voluntary diving and (seal), R175
- hydromineral excretion, calcitonin effects (sheep), R980
- mesonephric, sodium and chloride active transport (trout), R227
- norepinephrine turnover, diabetes insipidus and, R567
- pain, thoracolumbar spinal neurons, renal afferent input to, R435
- renin secretion, nerve stimulation and, mediation by opiate receptors, R973
- taurine transport, ionic requirements of (fish), R984
- volume expansion, nocturnal responses to, R638

Kidney tubules

- proximal
 - physiological properties (flounder), R608
 - transepithelial magnesium transport, R616
- reabsorption, angiotensin and, R960
- transepithelial voltages (quail), R333
- volume flow, sodium chloride secretion and (flounder), R753
- water and chloride transport (quail), R341

Knee menisci, mechanical response, thermomechanical stress, R65

L

Lactacidosis, deep hypoxia effects, ion transfer processes in (trout), R319

Lactate

- changes, complete brain ischemia, R348
- metabolism, voluntary diving and (seal), R175

Lactation: see also Fetus; Placenta; Pregnancy

- energy balance, brown fat thermogenesis and (hamster), R845

Laryngeal nerve, superior, resetting of respiratory rhythms and, R721

Light-dark cycle, transitions, circadian system and (hamster), R708

Lipid-depleting factor, metabolic response to, parabiosis, R276

Lipids

- accumulation, arterial wall, high-altitude effects, R485
- metabolism, control of food intake by fatty acid oxidation, R1003
- Lipogenesis, adipose, parabiosis, R276
- Lipopolysaccharide B, fever and, R776
- Lipopolysaccharides, cellular calcium regulation, endotoxin shock, R884
- Lipoprotein lipase, metabolism, adipose tissue, exercise in pregnancy, R837

Liver

- alloxan injection effects, glucagon-induced inhibition of feeding, R682
- endotoxin shock, cellular calcium regulation in, R884

feeding and, epinephrine-induced anoxia, R313

function, voluntary diving and (seal), R175

glucagon portal infusion, suppression of feeding and, R676

glucose output, regulation during exercise, R411

glycogen, adrenergic blockade, exercise and, R1060

oxidative metabolism, control of food intake, R1003

Loading, osmotic, angiotensin II, osmoregulation of, R918

Locomotion, circadian rhythms, propylthiouracil effects (hamster), R151

Lung

intravascular macrophages (calf), R728

recoil, postnatal development, thyroid hormone effects, R51

Luteinizing hormone, photo-induced adjustments, testicular function, R199

Lymph flow, thoracic duct, blood volume expansion effects, pregnancy (sheep), R1095

M

Macrophages, pulmonary, intravascular (calf), R728

Magnesium

extracellular ATP effects, isolated hepatocytes, R573

transepithelial transport, proximal tubules (flounder), R616

Meclofenamate, vasopressin release and, awake state, R1028

 α -Melanocyte-stimulating hormone, antiserum, central administration of, fever and, R803

Mercaptoacetate, fatty acid oxidation and, control of food intake, R1003

Meromyosin, heavy, skeletal muscle (frog), R56

Metabolic responses, temperature changes (pangolin), R377

Metabolic studies, microcomputer-assisted, voluntary diving (seal), R175

Metabolites, flux rates, mammalian (tuna), R452

Methionine-enkephalin, vasopressin and, spontaneous hypertension, R1007

Michaelis-Menten kinetics, glucose, brain, R127

Microcirculation: see also Blood flow; Circulation

gill, angiotensin extraction (trout), R532

Micturition, postnatal development, R926

Models

analytical, ventricular efficiency, R1021

fur, critical radius of endotherms, R699

glucose transport and metabolism, brain, R127

growth factor-tumor promoter dynamics, R1123

Monoclonal antibody, IgM, osmotic blood-brain barrier opening to, R875

Mononuclear phagocyte system, particle removal from blood (calf), R728

Motility, gastric, modulation by nucleus tractus solitarius, R996

 α -MSH: see α -Melanocyte-stimulating hormone

Muscle

mechanics and physiology, elastic energy storage (frog), R56

- Muscle (*continued*)
 phosphofructokinase control in, R71
 proteolysis, prostaglandin E₂ and, R207
 Muscle, skeletal
 dystrophic, cold acclimation and (hamster), R167
 elastic energy storage (frog), R56
 hypercapnia and hypocapnia effects (geese), R499
 Muscle, smooth, vascular, responsiveness, hibernator, season and temperature effects (woodchuck), R77
 Muscular dystrophy, cold-acclimation effects (hamster), R167
 Myocardium
 adenylate cyclase, β -adrenergic stimulation of, shock and, R358
 phosphofructokinase purified from, pH-induced hysteric properties of, R505

N

- Naloxone, antagonism of, renin release and, R633
 Natriureis
 atrial stretch, atrial peptides and, R946
 renal function, vasopressin release and, R789
 Natriuretic factor
 atrial
 awake state, R221
 pregnancy and, R589
 sodium excretion and, R946
 peptide (mosquito), R328
 Natriuretic peptide, atrial, renal function and vasopressin release and, R789
 Neonate
 bronchiolar epithelium development, R783
 endotherm, critical radius of, R699
 gastric load, control of ingestion and, R807
 Nephron, mammalian-type, transepithelial voltages in (quail), R333
 Neurohypophysis
 regulation, hyponatremia and, R444
 regulation of secretion, osmotic and volume stimuli in, R267
 Neurons
 hypothalamic
 glucose-sensitive, R120
 testosterone, estradiol and temperature effects, R625
 medullospinal sympathoexcitatory, nucleus paragigantocellularis lateralis, R1081
 sympathoexcitatory, spontaneous hypertension, R910
 thermoresponsive, amine effects, brain stem, R553
 thoracolumbar spinal, renal afferent input to, R435
 Neuropeptides, baroreflexes and, nucleus tractus solitarius, R193
 Neurotransmitters, modulation of VIP release, cerebral cortex, R104
 Newborn: see Neonate
 Nitroprusside, mechanical effects, carotid sinus, R1074
 Norepinephrine
³H-labeled, metabolism (trout), R519, R526
 α_2 -noradrenergic feeding rhythm and, paraventricular nucleus, R83
 thermoresponsive neurons and, brain stem, R553

- turnover
 cardiac and splenic, sepsis, R892
 diabetes and, kidney, R567
 diet and photoperiod effects, brown fat (hamster), R383
 diet effects, brown fat (hamster), R389
 uptake, arterial wall, high altitude and, R485
 utilization, brown fat denervation and, R1108
 vascular smooth muscle response, hibernation (woodchuck), R77
 Normoglycemia, glucose metabolism, brain, R127
 Nucleus paragigantocellularis lateralis, lumbar sympathetic discharge and, R1081
 Nucleus tractus solitarius
 afferent interactions, dorsal medulla, R580
 baroreflexes at, angiotensin II effects, R193
 gastric and arterial pressure modulation, R996

O

- Obesity
 development of, adrenalectomy effects, R595
 dietary
 brown fat and (hamster), R389
 brown fat denervation and, R1108
 extra-abdominal pressure, gastric emptying rate in, R549
 lipid-depleting factor and, R276
 Opiates
 endogenous, antagonism of, renin release and, R633
 receptors: see Receptors
 Opioids, endogenous, antagonism of, renin release and, R633
 Oscillators, biological, respiratory rhythms, R721
 Osmoregulation
 angiotensin II, central and systemic, R918
 lower intestinal modification, ureteral urine (sparrow), R89
 neurohypophyseal secretion and, R267
 plasma vasopressin and oxytocin, after sustained hyponatremia, R444
 sodium-chloride transport, urinary bladder (trout), R227
 vasopressin, sodium depletion and angiotensin II effects, R287
 water and electrolyte, shell size and (turtle), R1133
 Ouabain, electrical activity and, placenta (pig), R474
 Ovarian hormones, energy balance and thermogenesis in, brown fat, R245
 Oxygen
 affinity, blood, regulation of (chicken), R260
 consumption
 arterial, ventricular efficiency, model, R1021
 rate, body temperature and (pangolin), R377
 content, blood, uteroplacental (ewe), R1099
 delivery, sinoaortic denervation, awake state (sheep), R868
 equilibrium curve shape, whole blood (sheep), R298
 uptake, uteroplacental (ewe), R1099
 Oxygen-18, energy expenditure, doubly labeled water, R823
 Oxytocin
 neurohypophyseal secretion and, R267
 osmoregulation of, after sustained hyponatremia, R444
 P
 Pancreas, glucagon action, hypothalamus, R120
 Pantothenic acid, transport, central nervous system, R292
 Parabiosis, lipid-depleting factor in, metabolic response to, R276
 Parathyroidectomy, renal excretion and, chick (gull), R41
 Parathyroid hormone, renal excretion and, chick (gull), R41
 Paraventricular nucleus, α_2 -noradrenergic feeding rhythm, corticosterone relations, R83
 Peptides: see also Polypeptides
 atrial natriuretic
 atrial stretch and, R946
 kidney function and vasopressin release and, R789
 natriuretic factors (mosquito), R328
 Permeability
 cerebrovascular, IgM monoclonal antibody, R875
 water, osmotic, diluting segment in kidney (quail), R341
 water and nonelectrolyte, brain synaptosomes, R306
 pH
 changes, complete brain ischemia, R348
 erythrocyte metabolism and (chicken), R260
 glycolysis and, muscle, R71
 intracellular
 ionic requirements for regulation, hepatocytes (trout), R24
 phosphofructokinase dissociation and, ischemic heart, R512
 Phase-response relations, protein synthesis, circadian clock, eye (*Aplysia*), R5
 Phenylephrine, mechanical effects, carotid sinus, R1074
 Phorbol esters, tumor promoters, models, R1123
 Phosphate
 excretion, renal, parathyroid hormone and calcium loading effects, chick (gull), R41
 inorganic, ATP effects, isolated hepatocytes, R573
 Phosphofructokinase
 control, muscle, R71
 dissociation
 ischemic heart, R512
 pH-induced hysteric properties, myocardium, R505
 Photoperiod
 multiple endocrine adjustments and, testicular function, R199
 norepinephrine turnover and, brown adipose tissue (hamster), R383
 Phrenic nerve, respiratory rhythms, resetting of, R721
 Pituitary gland, posterior, spontaneous hypertension, R1007
 Placenta: see also Fetus; Lactation; Pregnancy
 electrical activity, sodium transfer and (pig), R474

growth, restriction effects on blood flow (ewe), R427
 human, diffusion permeability, cyanocobalamin (guinea pig), R459
 radioiodide transfer across (sheep), R112
Plasma
 catecholamine clearance (trout), R519
 concentrations, human placenta (guinea pig), R459
 constituents: see specific constituent
 restitution, hypothalamic lesions and hemorrhage, R18
 volume: see Volume
Polymyxin B, fever and, R776
Polypeptides: see also Peptides
 vasoactive intestinal, neurotransmitter modulation of, cerebral cortex, R104
Potassium
 balance, circadian timing system, R737
 extracellular ATP effects, isolated hepatocytes, R573
 renal excretion and, chick (gull), R41
Potential difference
 electrical activity, placenta (pig), R474
 radioiodide transfer, placenta (sheep), R112
Pregnancy: see also Fetus; Lactation;
 Placenta
 atrial natriuretic factor effects, R589
 energy balance, brown fat tissue thermogenesis and (hamster), R845
 exercise, adipose tissue metabolism and, R837
 maternal hypertonicity, fetal renal contribution to amniotic fluid osmolality (ewe), R235
 oxygen uptake, continuous uteroplacental (ewe), R1099
 thoracic duct lymph flow, blood volume expansion and (sheep), R1095
 uterine blood flow during, endogenous hormone regulation of (ewe), R365
Pressure: see also Blood pressure
 arterial
 angiotensin and, R960
 modulation by nucleus tractus solitarius, R996
 extra-abdominal, food intake and gastric emptying rate in, R549
 gastric, modulation by nucleus tractus solitarius, R996
 left ventricular, static exercise, α -adrenergic blockade effects, R1
Pressure-volume relations
 pulmonary alveoli, thyroid hormone effects, R51
 ventricular efficiency, model, R1021
Progestagens, uterine blood flow regulation, pregnancy (ewe), R365
Progesterone, energy balance and thermogenesis with, brown adipose tissue, R245
Prolactin
 ovine, calcium uptake (tilapia), R161
 photo-induced adjustments, testicular function, R199
Pronase, digestion, two natriuretic factors (mosquito), R328
Propylthiouracil, phase delays, circadian rhythms and (hamster), R151
Prostaglandins, vasopressin release and, awake state, R1028
Prostaglandin E₁, interaction with bradykinin, cardiac sympathetic afferents, R815
Prostaglandin E₂, muscle proteolysis and,

burn injury and cycloheximide effects, R207
Prostate, growth, aging effects, R1039
Protein
 concentration, thoracic duct lymph flow, pregnancy (sheep), R1095
 synthesis, circadian clock and, eye (*Aplysia*), R5
Proteoglycans, knee menisci, response to thermomechanical stress, R65
Proteolysis, muscle, prostaglandin E₂ and, R207
Proteolytic enzymes, eccrine sweat, R691
Puberty, food restriction effects, sex differences, R370
Pulmonary alveoli, postnatal development, thyroid hormone effects, R51
Puromycin, circadian clock, eye (*Aplysia*), R5
Pyrogen
 endogenous
 fever and, R776
 sleep and brain temperatures, R96

R

Radioiodide, transfer, placenta (sheep), R112
Receptors
 β -adrenergic, electrical activity and, placenta (pig), R474
 atrial, sodium excretion and, R946
 opiate, renal, mediation of renin secretion and renal nerve stimulation, R973
 opioid, VIP release, cerebral cortex, R104
 osmoreceptor, plasma arginine vasotocin regulation, awake state (cockere), R644
Reflexes
 atrial, sodium excretion and, R946
 baroreceptor
 γ -aminobutyric acid in, R1065
 nucleus tractus solitarius, R996
 spontaneous hypertension, R910
 baroreflex
 angiotensin II effects, nucleus tractus solitarius, R193
 carotid, maintenance of function, aging and, R1047
 control, senescence and, R733
 cardiac pressor, prostaglandin E₁ and bradykinin interactions, R815
 micturition, postnatal development of, R926
 respiratory, during mechanical ventilation, anesthesia, R902
Rehydration, dehydration and, angiotensin in, R898
Renal afferent nerves
 dorsal medulla, interactions in, R580
 input, thoracolumbar spinal neurons, R435
Renal nerve
 stimulation, mediation by opiate receptors, R973
 thoracolumbar spinal, renal afferent input to, R435
Renal nerves, diabetes, norepinephrine turnover and, R567
Renin
 ACTH control and, negative feedback, fetal and adult (sheep), R403
 adrenocorticotrophic hormone and, during hypoxia and hemorrhage, awake state, R240

cortisol-induced inhibition of, fetus (sheep), R795
 hypothalamic lesions and hemorrhage, R18
 plasma, angiotensin and, dehydration and rehydration, R898
 plasma activity, negative feedback control and, fetal and adult (sheep), R403
 release, suppression by endogenous opiate antagonism, R633
 renal responses, nocturnal, R638
 secretion, mediation by opiate receptors, R973
Renin-angiotensin-aldosterone system, atrial natriuretic peptide effects, R789
Renin-angiotensin system, drinking (fish), R1034
Respiration, phase locking, during mechanical ventilation, anesthetized subjects, R902
Respiratory control, during mechanical ventilation, anesthetized subjects, R902
Respiratory regulation
 fastigial nucleus stimulation and, R418
 resetting of rhythms, R721
Respiratory rhythm: see Rhythms
Reticuloendothelial system, particle removal from blood (calf), R728
Rhythms
 circadian
 circannual variations (squirrel), R831
 light and dark transition effects (hamster), R708
 propylthiouracil effects (hamster), R151
 protein synthesis in, eye (*Aplysia*), R5
 sexual activity and, males, R665
 diurnal, corticosterone relations, paraventricular nucleus, R83
 respiratory, resetting, R721

S

Saralasin, angiotensin II and, sodium appetite suppression, R251
Satiety: see also Feeding
 central action of glucagon, hypothalamus, R120
 dehydration and rehydration, angiotensin in, R898
 fasting interval, CCK-8 effects (baboon), R851
 feeding control, infant, R807
 fenfluramine effects, feeding and gastric emptying (monkey), R764
 glucagon, alloxan injection effects, R682
Seasonal acclimatization, vascular smooth muscle response, hibernator (woodchuck), R77
Senescence
 baroreflex control and, R733
 carotid baroreflex function and, R1047
Sepsis, norepinephrine turnover, cardiac and splenic, R892
Septic shock: see Shock
Sex differences, reproductive development, food restriction and, R370
 Sexual activity, correlates of loss, aging males, R665
Shock
 endotoxic, cellular calcium regulation in, liver, R884

- Shock (*continued*)
 hemorrhagic, physiological responses, R951
 septic
 β -adrenergic stimulation of adenylate cyclase, myocardial, R358
 norepinephrine turnover, cardiac and splenic, R892
 Sleep, interleukin 1-enhanced, brain temperature changes, R96
 Sleep-wake cycle, predictive versus reactive homeostasis, R737
 Sodium
 active transport, urinary bladder epithelium (trout), R227
 appetite, central actions of angiotensin II and, R251
 depletion, osmotic regulation of vasopressin and, R287
 exchangeable, shell size and (turtle), R1133
 excretion
 atrial natriuretic factor effects, pregnancy, R589
 atrial stretch effects, R946
 control by angiotensin, R960
 extracellular ATP effects, isolated hepatocytes, R573
 renal excretion and, chick (gull), R41
 taurine transport and, kidney (fish), R984
 transfer, electrical activity and, placenta (pig), R474
 Sodium chloride
 cotransport, kidney tubules (quail), R333
 secretion, proximal tubules (flounder), R616
 secretory, volume flow and, kidney tubules (flounder), R753
 Sodium-hydrogen exchange
 regulation of intracellular pH, hepatocytes (trout), R24
 urinary bladder epithelium (trout), R227
 Sodium nitroprusside, ACTH and renin secretion, cortisol-induced inhibition of, fetus (sheep), R795
 Sperm, stores, aging and, R665
 Spermatogenesis, photo-induced adjustments, testicular function, R199
 Splanchnic nerve, least, thoracolumbar spinal, renal afferent input to, R435
 Spleen, norepinephrine turnover, septic peritonitis, R892
 Starvation: *see* Fasting
 Steroids, reproductive, neurons in preoptic hypothalamic tissue slices and, R625
 Stomach
 extra-abdominal pressure, food intake and gastric emptying in, R549
 fenfluramine effects, feeding and gastric emptying (monkey), R764
 fill, feeding control, infant, R807
 Stress
 angiotensin extraction and, gill (trout), R532
 negative feedback control, ACTH and renin, fetal and adult (sheep), R403
 thermomechanical, mechanical response, knee menisci, R65
 Subfornical organ, ablation, angiotensin-induced water drinking (sheep), R1052
 Substance P, abdominal visceral afferent stimulation, R465
 Substrate, renin, negative feedback control, fetal and adult (sheep), R403

- Sweat glands, eccrine, proteolytic enzymes, R691
 Sympathetic activity, arterial wall, high-altitude effects, R485
 Sympathetic afferents, cardiac, prostaglandin E_1 and bradykinin interactions, R815
 Sympathetic nerves
 activity, GABA in, R1065
 blood pressure control and, development, R188
 sinuorotic denervation, hypoxia, circulatory responses to, awake state, R868
 Sympathetic nervous system
 blood pressure and, maintenance, R770
 brown fat denervation, dietary obesity and, R1108
 diet and photoperiod effects, brown fat (hamster), R383
 norepinephrine turnover
 kidney, R567
 sepsis, R892
 Sympathoinhibition, baroreceptor-mediated, GABA in, R1065
 Synaptosomes, brain, water and nonelectrolyte permeability in, R306

T

- Tachyphylaxis, prostaglandin E_1 , bradykinin interactions, R815
 Taurine
 DOCA-salt and, blood pressure and fluid changes, R1007
 secretion, kidney (snake), R712
 transport, ionic requirements of, kidney (fish), R984
 Temperature
 acclimation, cultured hepatocytes (teleost), R211
 neurons and, preoptic hypothalamic tissue slices, R625
 regulation, blood flow and, leg (baboon), R30
 vascular smooth muscle response, hibernator (woodchuck), R77
 Temperature, body
 colonic, thyroid hormone replacement, food deprivation and, R861
 correlates of sexual loss, males, R665
 endogenous pyrogen effects, R776
 oxygen consumption rate and (pangolin), R377
 Testis, function, photo-induced multiple neuroendocrine adjustments in, R199
 Testosterone
 neurons and, preoptic hypothalamic tissue slices, R625
 photo-induced adjustments, testicular function, R199
 prostate growth, aging and, R1039
 Thermal responses, oxygen consumption (pangolin), R377
 Thermogenesis
 brown fat
 denervation, diet-induced, R1108
 energy balance and, ovarian hormone effects, R245
 energy balance and, pregnancy (hamster), R845
 nonshivering, diet and photoperiod effects, brown fat (hamster), R383
 Thermopreferendum, behavioral fever and therapy, *Rickettsia* infection (cricket), R991

- Thermoregulation
 amine effects, neurons, brain stem, R553
 circadian timing system, physiology of, R737
 ventromedial hypothalamus, awake state, R560
 Thiocyanate, iodide transfer, placenta (sheep), R112
 Thirst: *see* Drinking
 Thoracic duct, lymph flow, blood volume expansion effects, pregnancy (sheep), R1095
 Thyroid hormones
 circadian rhythms, propylthiouracil effects (hamster), R151
 pulmonary alveoli postnatal development and, R51
 replacement, β -adrenergic responsiveness to food deprivation, R861
 Thyroxine, replacement, β -adrenergic responsiveness to fasting, R861
 Training: *see* Exercise
 Triiodothyronine, replacement, β -adrenergic responsiveness to fasting, R861
 Tyrosine, release, muscle, R207

U

- Umbilical cord, blood flow: *see* Blood flow
 Urea, transport, brain synaptosomes, R306
 Uremia, brain synaptosomes, water and nonelectrolyte permeability in, R306
 Urinary bladder, epithelium, sodium and chloride active transport (trout), R227
 Urine
 fetal, amniotic fluid osmolality and (ewe), R235
 formation, aglomerular and glomerular (flounder), R753
 ureteral, modification in lower intestine (sparrow), R89
 Uterus, blood flow: *see* Blood flow

V

- Vascular segments, measurement of compliance in, R142
 Vasoconstrictor, mechanical effects, carotid sinus, R1074
 Vasodilator, mechanical effects, carotid sinus, R1074
 Vasopressin: *see also* Antidiuretic hormone
 arginine, sympathetic nervous system and blood pressure maintenance, R770
 atrial stretch and, awake state, R221
 electrical stimulation and, subfornical organ, R1117
 methionine-enkephalin and, spontaneous hypertension, R1007
 neurohypophyseal secretion and, R267
 osmoregulation of
 after sustained hyponatremia, R444
 sodium depletion and angiotensin II effects, R287
 release
 atrial natriuretic peptide effects, R789
 prostaglandin effects, awake state, R1028
 renal responses, nocturnal, R638
 Vasotocin
 arginine
 diluting segment in kidney (quail), R341

regulation, awake state (cockere),
R544
regulation in water deprivation, awake
state (cockere), R658
Ventilation, mechanical, respiratory phase
locking during, anesthetized sub-
jects, R902
Ventral medulla, neurons of C₁ area, cardi-
ovascular responses and, R932
Ventricles: see Cerebral ventricles; Heart
ventricles
Ventrolateral medulla
anterior, sympathoexcitatory neurons in
spontaneous hypertension, R910
rostral, GABA in, R1065
VIP: see Polypeptides, vasoactive intestinal
Voltage
transepithelial
kidney tubules (quail), R333
lumen-positive, kidney (quail), R341
Volume
blood
arginine vasotocin regulation, awake
state (cockere), R644

homeostasis, circadian timing system,
R737
nocturnal responses to volume expan-
sion, renal, R638
thoracic duct lymph flow and, preg-
nancy (sheep), R1095
expansion, nocturnal responses to, renal,
R638
plasma, hypothalamic lesions and hem-
orrhage, R18
regulation, neurohypophyseal secretion,
R267
vascular, technique for measurement,
R142

W

Water
body, energy expenditure and, R823
brain, hyponatremia and, R444
composition, shell size and (turtle),
R1133

deprivation
blood flow and, leg (baboon), R30
regulation of arginine vasotocin in,
awake state (cockere), R658
doubly labeled, energy expenditure by,
R523
intake
angiotensin II, osmoregulation of,
R918
epinephrine-induced anoxia and, R313
permeability: see Permeability
transport
brain synaptosomes, R306
kidney (quail), R341
Weight
body
energy balance and brown fat thermo-
genesis, pregnancy (hamster), R845
propylthiouracil effects (hamster),
R151
regulation, brown fat denervation and,
R1108
